

# PowerDMARC Supports

## Single Sign-On (SSO) and Directory Support

Let your team members sign into PowerDMARC using your identity provider of choice. PowerDMARC allows you to integrate SSO SAML or OpenID Connect Protocols or your Directory with a simple easy wizard. This feature is available as an optional add-on at the Enterprise License or in the Premium License at the MSP/MSSP program.

## List of Single Sign-On (SSO) / SAML Support IdP's:

AD FS SAML

ADP OIDC

Auth0 SAML
